WELCOME TO VOLVO TRUCK & BUS

Everything we need for modern life, everyday necessities from food, clothes, transport to luxuries such as latest technology is delivered by a truck. Every day, hundreds of thousands of trucks move millions of tonnes of material around the UK and Ireland. With leading, cutting-edge technology, this is an exciting industry to be a part of.

Volvo Truck & Bus are famous for producing world-class vehicles with excellent performance and impeccable reliability. We achieve this by investing in research and development, state-

of-the-art facilities and embracing new technologies – but above all, by working with determined and committed people.

At Volvo Truck & Bus, we've built a culture based on Quality, Safety, care for the Environment and respect for the individual. If you want to progress, then we'll do everything we can to help you to achieve your goals.

With a network of over 85 fully equipped Volvo Truck & Bus workshops throughout the UK and Ireland, the opportunities within our global organisation are endless. We'll give you the skills to learn, develop and excel in your career, whilst earning.

From working with the latest technology, to our highly skilled staff, we are committed to giving you the best step forward into the future. The dedicated 4-year programme has been designed to meet the needs of an ever-changing industry and covers all aspects of truck and bus maintenance and repair with a focus on electronics, diagnosis and computer management systems. At our state-of-the-art academy, we invest in the latest vehicles, diagnostic equipment and constant professional development of our training team to ensure that you get the highest quality learning experience in the industry.

“At Volvo Truck & Bus, we've built a culture based on Quality, Safety, care for the Environment and respect for the individual. If you want to progress, then we'll do everything we can to help you to achieve your goals.”

Ultimately, we provide all our apprentices with the skills they need to become fully qualified individuals in this industry. With continual professional development offered throughout your career, you can be sure that as a valued member of the Volvo family, we're always investing in you.

So, if you have the desire and passion to work in the automotive industry, have the right attitude and commitment as well as good GCSE grades or can demonstrate a sound level of knowledge in maths and science – step forward into a future with Volvo.

We believe it all begins with you.

Adam Plastow
Commercial Academy Manager
Volvo Trucks UK & Ireland

VOLVO TRUCK & BUS TRAINING ACADEMY

Based at Stephenson College in Coalville, Leicestershire, the fully-equipped workshops allow you to work on the latest Volvo vehicles with the most up-to-date equipment and tools.

What's more our lecturers always have the latest knowledge on our products to enhance your training experience.

Whilst on residential training at the academy, you'll also have access to various facilities including two campus restaurants, a fully-equipped fitness suite with stations of Technogym equipment and an on-site hairdressers. You will be part of a vibrant student life where you'll have many opportunities to meet new people and make friends.

UNIQUE JOURNEYS

JACK THOMPSON HARTSHORNE MOTOR SERVICES

Joining has been the best decision that I have ever made, I chose the Hartshorne Group as I had heard that the course and training was of a really high standard. I started working at the Hartshorne Group at the Birmingham depot, while I was doing my apprenticeship and still work there now. At the depot I was assigned a mentor to guide and coach me through all my daily tasks, teaching me valuable skills and expert knowledge of Volvo Trucks and Buses.

The apprenticeship gives you the opportunity to put the theory you learn at Stephenson College into practice and I'd recommend it to anyone thinking of becoming a HGV Technician – it's a fantastic opportunity and not one to be missed. The support from the college tutors and staff is also second to none, they are on hand 24/7 to answer any questions or worries while you're away at college. I'm very proud to work for the Volvo brand and the sense of belonging working at the Hartshorne Group is fantastic.

"The apprenticeship scheme has been a great way to learn a variety of different skills in a professional working environment."

"I can't wait to complete my apprenticeship and become a fully qualified HGV Technician."

RACHEL SISSONS HARTSHORNE MOTOR SERVICES

From an early age I was always messing around with engines and knew that I wanted a job within the field of mechanics. When I saw a vacancy for an HGV Technician Apprentice, I went to one of their open days to find out more.

Since starting with the Hartshorne Group, they have already put me through extra training courses over and above my apprenticeship so I'm always learning and developing my knowledge. Since working alongside the team at Alfreton, I have worked on everything from gearboxes to diagnosing truck faults and I love the job that I do every day is a new challenge.
