

## WE ARE HIRING – EXETER LIGHT VEHICLE TECHNICIAN - CONVERSION PROGRAMME

### Interested in switching from a Light Vehicle Technician to Heavy Goods Vehicle Technician?

If you are a passionate mechanic working with cars, plant, or vans, and your career matters to you, consider switching to work on some of the biggest, most powerful production trucks - Volvo

The Company Founded in the 1940s, Stuart Partners has gone from the humble beginnings of transporting cattle in a second-hand Dodge, to a thriving multi-service family business.

Today we have expanded exponentially, working with the premium Volvo. Working in a diverse range of sectors, from farming to a truck and bus dealership, we have automotive and vehicular services covering the whole of Devon and Cornwall.

If you believe trucks are for you and ideally have a Level 3 Diploma in Light Vehicle Maintenance and Repair Principles – (Level 2 considered), or other similar qualifications,

Stuarts Truck & Bus, in conjunction with Volvo, can offer a unique opportunity to become an HGV Technician.

Applicants must be willing to attend a conversion training programme at Remit's Training Academy in Derby, in blocks of 3-5 days, usually once a month, over a time frame of around 7 months.

All travel and accommodation expenses paid.

### THE JOB ROLE:

Once converted you will be servicing, repairing and maintaining trucks, buses, luxury coaches including hybrid technology to the highest standards using computer aided diagnostic equipment and Volvo special tools.

### THE BENEFITS OF CONVERTING:

- Trucks mean business – our customers range from construction vehicles servicing the main infrastructure projects, to 44 ton tractor units delivering goods right across Europe.
- Environmental innovations including hybrid, LNG and full electro mobility
- Easier to work with, more space under the bonnet.
- Cutting edge technologies from automatic lane-keeping to autonomous braking.
- New challenge; systems not found on light vehicles such as air braking systems and air suspension.
- New career path. Chance to progress and constantly improve your skills.
- Ongoing continuous development; technical and product training delivered in house.
- Working alongside a fully trained team of HGV Technicians.
- Shift hours allowing family time (i.e. Alternating early/late, every other Saturday off.
