

2.2.2 ENVIRONMENTAL POLICY

A. Culpin and Son Ltd provide parts and service to the haulage industry and are fully committed to a Management System which will ensure that our products and services meet the high standards demanded by our customers.

A. Culpin and Son Limited are committed to sound environmental practice and to plan and update its practices in response to advances in technology and new understanding in environmental science.

ENVIRONMENTAL PRINCIPLES

The Company is committed to continual improvement on environmental issues where economically feasible.

We will set and review objectives to monitor our environmental performance and improvement.

We will minimise the production of waste where possible and any disposal of waste produced will be carried out with due care for the environment.

We will try to minimise the use of new products where other recycled materials are a suitable substitute.

Where waste materials or products can be recycled we will make every effort to ensure that they are recycled in an environmental responsible way in order to conserve resources.

We will try and minimise the use of energy sources within the organisation, including the use of resource energy when conducting site operations.

We will compile and keep publicly available this Company Environmental Policy.

We will ensure that our operations comply with current legislation and other relevant requirements.

We will endeavour to control the activities of the company to minimise any risks of pollution to the environment.

We will be a responsible employer and neighbour.

We will ensure that all employees carry out their duties in line with the above statement and, through training, are aware of their obligations.

Steve Culpin (Managing Director)
